

**Association for the Professional in Infection Control and Epidemiology
Atlanta Chapter 025**

Willingness to Serve Form 2018

Name: Kaleb Price, MPH, M(ASCP), CIC	Title: Infection Preventionist
Institution: Gwinnett Medical Center	Supervisor: Darlene Carey
APIC Member ID # 173418	
Work Phone: 678-312-2486	Alternate Phone: 601-604-0409
Email Address: kaleb.price@gmail.com	

Please describe your current scope of practice:

Gwinnett Health Systems includes 2 hospitals with over 430 combined inpatient beds, a long-term care facility, an inpatient rehab facility, and multiple outpatient settings. As a member of a 5-person IP team, along with our director, I am responsible for surveillance, process and policy review and improvement, education, ICRA's, and public health reporting.

I have lead responsibility for NHSN reporting and analysis, internal data reports, high-level disinfection, post-surgical inpatient unites, and our long-term care facility.

Please give a brief introduction of yourself for our chapter members:

I'm originally from Mississippi where I worked for 2 years in a clinical microbiology lab for a mid-sized hospital. In 2012, I moved to Decatur to work on my Master of Public Health at Emory. After graduation, I worked for two years in CDC's Outbreak Response and Prevention Branch, assisting state health departments in building capacity to respond to foodborne outbreaks. When I learned about infection prevention, I knew it would allow me to use skills from my clinical and public health experiences, and I've been at Gwinnett Medical Center since 2016.

If selected, I agree to honor all responsibilities and attend scheduled meetings of the position that I am seeking. Please indicate your willingness to be considered for the position below by marking your preference:

X President Elect
