Please give a brief introduction of yourself for our chapter members:

Greetings, I am Andrea Pruitt MPH CIC. I have worked in infection prevention over 8 years with experience in pediatrics and acute care. Prior to my IP career, I worked as a microbiologist at the Centers for Disease Control and Prevention, specializing in vaccine preventable diseases. I have had the pleasure of serving on the Greater Atlanta APIC board from 2020-2023, and several committees since 2016 and as Chapter President. I am currently a member of the Membership Engagement Committee (MEC) for APIC. When I am not doing IP stuff or being an uber driver for my 2 very active children, I enjoy travelling, hiking, amateur gardening, and sneaking in a nap. Being involved in APIC has truly shaped my love for infection prevention and the IP community. It has also bolstered my professional growth through networking, educational sessions, and opportunities to volunteer and serve.

**Please describe your current scope of practice:** I currently work as a surveillance and analysis infection preventionist for acute care facilities within the Piedmont Healthcare System. Key responsibilities include HAI surveillance through collection, review, analysis, and interpretation of data from various sources, supporting IP related presentations and projects, validation and submission HAI data to internal leadership and external organizations as required.

If selected, I agree to honor all responsibilities and attend scheduled meetings of the position that I am seeking. Please indicate your willingness to be considered for the position below by marking your preference:
